## 👤 PROFILE

Dynamic, detail-oriented web application developer highly regarded for requirements gathering, design, and development of applications to support business development. Recognized as an analytical engineer with a proven track record of excelling at learning new technologies and successfully applying them to develop clean and well-structured code. Experienced at working on projects from initial idea and development phase (vision/analysis), performing all design/architecture work, and delivering the completed product.

## 📁 EMPLOYMENT HISTORY

### Web Developer at Maestro PMS, Markham, ON

February 2019 — January 2020

- Maintaining more than 200 websites across clients. Developed and updated booking landing page for clients to match their website and implemented tracking codes as per request.
- Maintained and enhanced Maestro PMS booking engine with interactive features by utilizing Java, Java Servlets, Java Server Pages (JSP) and Postgres SQL.
- Improved UI/UX and system flexibility with responsive design.
- Customized booking confirmation email templates and discuss options with clients to make sure the templates meet their needs.

### PHP Developer at BackerCity, Markham, ON

July 2018 — January 2019

- Developed new widgets for both end-users and website administrators by using PHP & MySQL. The new campaign premium package services increased sales by 40%, and the support team works more efficiently with the new administration platform.
- Implemented new UI and templating system with Bootstrap and JavaScript to improve UX and system flexibility.
- Implemented social media sharing and commenting system to enhance the interaction among users, and boosted traffic by 50%.
- Maintained and secured website against SQL injection and cross site scripting.

## 🎓 EDUCATION

### Diploma – Business Information Technology , Red River College, Winnipeg, MB

January 2015 — May 2017

- **Honors:** BIT 2017 Spring Honor Graduate (GPA: 4.05 / 4.5)

## ★ PROJECTS

### Shopify Developer for Red River College BIT 2016 Industry Project, Winnipeg, MB

May 2016 — December 2016

- Won Red River College BIT 2016 Industry Project Award
- Supported a start-up company (Penguin + Stone) to customized their Shopify theme and stored extra data by using Shopify Liquid Template language, Shopify API, Ajax and JSON.
- Worked with Agile software development methodology to increase project efficiency.
